PERITONEAL CARCINOMATOSIS WORKSHOP

Friday 20th October 2023

Institut Jules Bordet, Rue Meylemeersch 90, 1070 Brussels

- **Morning session: Multidisciplinary approach with radiologic emphasis**
- **Afternoon session: Practical case-based workshop: Become proficient at diagnosing peritoneal carcinomatosis on CT and MR**

ABOUT THE COURSE

This one day workshop is addressed to all physicians involved in their daily practice in the diagnosis, staging, clinical and surgical management of peritoneal carcinomatosis.

The morning session highlights the multidisciplinary aspects of the management of patients with peritoneal carcinomatosis.

The afternoon session consists of a case-based workshop, addressed to radiologists and radiologists-to-be who aim to achieve or to improve their expertise in the diagnosis and staging of PC. Emphasis will be made on learning a systematic and rewarding approach to look for peritoneal deposits.

Participants will be granted access to CT and MR cases of peritoneal carcinomatosis on a DICOM virtual PACS one month prior to the meeting. Onsite, there will be plenty of time for Q&A and challenging cases will be reviewed.

Seats are limited to ensure a cozy learning environment.

The meeting will be held in English.

FACULTY

Dr. A. Arçay Ozturk

Department of Nuclear Medicine, Institut Jules Bordet

Prof. Dr. M. A Bali

Department of Radiology, Institut Jules Bordet

Dr. A-L. Deleu

Department of Nuclear Medicine, Institut Jules Bordet

Dr. M. Gomez Galdon

Department of Pathology, Institut Jules Bordet

Prof. Dr. G. Liberale

Department of Digestive Surgery, Institut Jules Bordet

Prof. Dr. V. Vandecaveye

University Hospitals, Leuven

Dr. A. Veron

Department of Radiology, Institut Jules Bordet

SCHEDULE

8:30	Registration
8:55	Welcome
9:00-9:20	The radiologist approach I: what to know and what to look for
9:20-9:40	The radiologist approach II. Cross-sectional imaging modalities in peritoneal carcinomatosis: indications and limitations.
9:40-10:00	The nuclearists approach: hyper and hypo
10:00-10:20	Treatment options: resectable or not resectable?
10:20-10:35	Peritoneal carcinomatosis under the microscope
10:35-10:45	Q&A
10:45-11:15	Coffee break
11:15-12:00	Multidisciplinary case-based discussion
12:15-13:15	Lunch break
13:15-15:15	Practical workshop part 1
15:15-15:45	Coffee break
15:45-17:30	Practical workshop part 2
17:45	Adjourn
